RE: Rose Metal Systems Inc
Steve Rose

To Whom it May Concern:

It has been my pleasure to know and work with Steve Rose for more than 20 years. As the owner of Rose Metal Systems, Steve has been very involved in making employee safety his number one priority. Since the inception of his company in 1995, the overall loss experience for Rose Metal has been outstanding. This has given Rose Metal one of the lowest Workers Compensation experience modifications in his industry.

Steve's honesty, integrity and commitment to safety have made Rose Metal a shining example of what a good contractor should be. He continuously invests in state of the art safety equipment and constantly searches for better ways to protect his employees from injuries. For Steve, maintaining a safe work environment is just as important as delivering an outstanding product to his customers.

Our agency recently approved the installation of a new metal roof for our building and Rose Metal was chosen to do the job. Not only was the work done well and on time, but the professionalism and commitment to safety was apparent at all times. Rose Metal Systems truly is the "best of the best".
